SIRA No: 147692

### ASSET PROTECTION SPECIALISTS

3 May 2010

To whom it may concern,

**RE: RIDE-ON TYRE PROTECTOR**

I refer to the above product and would like to confirm the following. Maxim Safeguard cc currently has 13 patrol vehicles which travels on rough and poor terrain on a daily basis. Not a week went by without having one or two punctures on these vehicles.

A few months ago in February I decided to install the Ride-on product into all my vehicles' wheels. I haven't had one single puncture since the day we installed the product. I would really like to praise Ride-on for it's efficiency. Thanks to Ride-on I no longer have to deal with punctures any more.

Thank you for a product that really works!

Yours truly,

**ALBERT LUDORF**
